

The Defense Logistics Information Service (DLIS) produces a series of interactive catalogs of all geospatial products stocked by both the Defense Supply Center Richmond (DSCR) and the Federal Aviation Administration (FAA). Together they are called the DLA Map Catalog.

The DLA Map Catalog is used to locate and identify geospatial products using several easy-to-use search tools that help users find the right products for their specific needs. One feature of the DLA Map Catalog is that different map product layers can be searched on the same area simultaneously, allowing users to locate exactly which products they need. These products can then be ordered from DLA or FAA in either hardcopy or digital format.

The DLA Map Catalog is a significant step forward in interactive product catalogs and the catalog's ability to be updated online ensures current data.

Take a moment to explore the possibilities with the DLA Map Catalog.

## DLA Limited Distribution Catalogs

DLA produces a series of interactive catalogs for Military and Government use. These catalogs contain only products stocked by DLA. Each catalog contains products divided into four categories: Aeronautical, Digital, Hydrographic and Topographic, all available in one catalog.

Catalog users can order these products by finding, selecting and adding products to an interactive shopping cart. Check-out by saving an automatically generated MILSTRIP and uploading it to WEBREQ or DOD EMAIL.

The DLA map catalog is now available on line at:

NIPRNET: <https://dmc.dlis.dla.mil>  
SIPRNET: <http://dla.smil.mil>

## Features:

- Search by Area of Interest, Product Series, Sheet/Chart-number, Exact Location, Notice to Mariner, Bi-lateral Chart Agency and Route
- Bi-monthly Distribution
- On-line catalog updates
- On-line ordering capability

## Ordering DLA Limited Distribution Catalogs

To order the Limited Distribution DLA Map Catalog, contact DLA at 800-826-0342, DSN 695-6500, or their web site:
